Subject: Support for the policy orders supporting bike lanes and other infrastructure in Cambridge

Dear Council Members,

I am writing to add another voice in support of the policy orders supporting improved or expanded bicycle lanes and other related infrastructure in the City of Cambridge. As an individual who lives within two blocks of Porter square and had commuted through Inman square, I experience first hand the issues with areas that occur with insufficient support for truly safe multimodal street use.

Please support the acceleration of infrastructure development and associated budget to help realize Vision Zero.

Thank you.

Respectfully submitted,

Anne Marie Biernacki
