Subject: safe streets

Dear City Council members,

I know several of you bike around Cambridge. So do I. So do my friends... many of whom are your friends too.

One of my friends biked through Porter Square right after the recent accident and couldn't talk about what she saw. I lived near Inman Square when the previous fatal accident happened. Now I lived right near Porter Square. These are my neighborhoods. These are **our** neighborhoods.

I urge you to support the policy order that call for protected bike lanes now. I'm unable to attend today's rally, but hope you know how urgently we need streets that are safe for bicyclists and pedestrians.

Thank you,
Deborah New
